

Having a baby is a joyous and important milestone in one's life. At Halisi Family Hospital, we walk the journey to motherhood with you and endeavour to make this experience as pleasant and safe as it possibly can be for you and your baby.

We also understand that having a new baby can be overwhelming and costly, and have therefore developed Maternity Packages that are affordable and allow you to plan and prepare for the costs that are involved in taking care of you and your baby during and after delivery.

Our team of midwives, obstetricians and paediatricians ensure that you receive high quality care in a comfortable environment.

We offer the following options for Maternity Services:

I. Normal Delivery with Midwife Package

Applicable Terms and Conditions

1. To qualify for any Maternity Package, one must be assessed and cleared as eligible for the package by the Hospital Obstetrician on or before 36 weeks. Following the assessment and medical findings, the doctor will fill in the Package Consent Form against which you will pay the required booking deposit.
2. Packages apply for in-house doctors only.
3. You will also be required to have completed payment for the Full Package Cost on or before admission for you to be received on the package. Failure to do so will disqualify you from the package and your bill be itemised.
4. A Letter of Undertaking/ Commitment Letter will be required for clients whose bill will be settled by a Corporate Scheme or Insurance Company and should be delivered to the Hospital on or before 36 weeks.
5. You will be required to sign the Package Consent Form that indicates that you understand and agree to the terms and conditions of the maternity package you have chosen and are qualified for.
6. The Package prices are exclusive of NHIF. You will be required to submit your NHIF card on admission or 12 hours before discharge. If you are not covered by NHIF, you will be required to pay the additional amount that would have been paid by NHIF.
7. Emergency Caesarean section is not covered in the Caesarean section package.
8. Any unbooked Normal Delivery or Caesarean section, will not be eligible for the package and the bill will be itemised.
9. Any extra costs arising from an obstetric or medical complication or services not included in the packages will be met by the client.

The Maternity Packages excludes the following:

- Antenatal care services.
- Discharge medications/drugs. These will be charged separately.
- Delivery or treatment anywhere else other than at Halisi Family Hospital
- Admission in a private room. The patient will be required to pay the difference in cost.
- Additional admission days for the mother and/or baby other than those specifically mentioned in the packages. Additional stay days will be charged separately.
- Obstetrician daily ward review charges other than those specifically mentioned in the packages.
- Paediatrician receiving baby charges.
- Paediatrician daily ward review charges other than those specifically mentioned in the packages.
- Epidural for 'painless labour' if required.
- Drugs used in induction of labour where required.

- Drugs and procedures related to complications of delivery including but not limited to vacuum extraction, forceps delivery, manual removal of retained placenta, PPH, examination under anaesthesia, perineal and cervical tear repairs in theatre, etc.
- Any ultrasound examination that may be required.
- Other Specialist Consultations that may be required.
- Laboratory tests other than those specifically mentioned in the packages.
- Immunisation other than those specifically mentioned in the packages.
- Admission due to false labour.
- Multiple pregnancy.
- Admission during pregnancy for reasons other than delivery.
- Treatment of any illness during pregnancy and delivery that is unrelated to pregnancy e.g. malaria, UTI, URTI, etc.
- Blood transfusion if required.
- Incubator care, phototherapy, treatment for prematurity, congenital diseases/conditions, respiratory distress or any other illness in the neonate.
- Illnesses in the baby after discharge.
